

Activity 1

- Create a patient information form using php and html.

Output:

The screenshot displays a web browser window with the title bar showing multiple tabs: 'View Assessment', 'File', 'Bb 67765973', 'Student Marks Calculator', and 'Patient Information System'. The address bar shows the URL 'localhost:8080/LabAct1_De%20Leon_Sanchez.php'. The page content features a form titled 'Patient Information Form' in green text. The form is a white box with a green 'Submit' button at the bottom. It contains the following fields: 'Patient Name:' with a text input, 'Gender:' with a dropdown menu showing 'Male', 'Age:' with a text input, 'Number of Days:' with a text input, and 'Initial Deposit:' with a text input. The Windows taskbar at the bottom shows the search bar, various application icons, and the system clock indicating 3:25:27 PM on 8/30/2024.

Patient Information Form

Patient Name:

Gender:

Age:

Number of Days:

Initial Deposit:
